RACING HISTORY

Every since I can remember, I've had an unexplainable love for cars. At the age of 10 I started karting and I couldn't think of nothing else anymore. The following 8 years I went to win a good part of the championships I did in Brazil, then at the age of 18, had my first experience in single seaters, winning the Mazda scholarship in the U.S. and getting the funding to start racing with cars.

I've been lucky enough to race competitively 6 years in single seaters before having the opportunity to join Lamborghini Squadra Corsa in 2016 and start my GT career.

This year I felt very honored to drive in Japan with the Nissan GTR, it was the car that made me fall in love with GT's back when I was a kid playing video games.
